**Attachments:** Q1 FY20 Registration Review Overview for OCSPP AA\_(12-18-19).docx

Ed's at the OPP General and talking to Alex now about the upcoming actions attachment. He's asking if you can send the Triazine prepub of the FRN for Alex to sign and the signed decisions from Elissa. Also, Alex approved FRN #1, but pulled out creosote and Irgarol. Will get back soon on those two.

Ed – please chime in if you heard differently.

**Subject:** Q1 REg Review Package

Attached is the updated Q1 Registration Review package. I note that the OCSPP IO have seen and commented on the following fact sheets: Heavy-duty wood preservatives, irgarol, 1,3-D, chlorine gas, neonics, pyrethroids, triazines, soil fumigants, and glyphosate. We have not received comments on propargite, diquat, or starlicide.

Please share this with the OCSPP IO asap. Thanks!
